The **Electrical Event of the Year** is back!

CapitalTristate Expo 2017 is back and bigger than ever! This year, our focus is on innovation. We will be featuring the latest products and technology for both Industrial & Commercial markets— don't miss this great opportunity! There will be many vendors in attendance, displaying and demonstrating the latest products and services they have to offer.

There will also be tons of in-booth activities from leading manufacturers, including contests, giveaways and hands-on product demonstrations.

In addition to the products and technology, Ideal will be there holding a National Championship qualifying event. Being an electrician requires skills, knowledge and

coordination. Use your skills to compete for over \$500,000 in cash & prizes! Register today at www.IDEALNationals.com. Semi-finals & finals held at Disney's Coronado Springs Resort on November 10-11, 2017.

Why not take advantage of the CapitalTristate network? There's no better place to experience more state-of-the-art product & technology all in one place!

THURSDAY
SEPTEMBER 21
2017

10:00am – 6:00pm

Martin's Crosswinds
 7400 Greenway Center
 Drive, Greenbelt, MD 20770

We are dedicated
 to providing high quality
 educational sessions led by
 industry experts.

**Analysis of Changes 2017 with Industry Expert
 Wayne H. Robinson**

**Wednesday, September 20 at 7:00am – 3:30pm &
 Thursday, September 21 at 7:00am – 12:00pm**
Cost: \$299 early bird price, \$349 after August 21

This updated course is based on the latest 2017 edition of the National Electrical Code (NEC). This course qualifies for 10 Credit Hours toward continuing education requirements in the state of Delaware, the state of Maryland, and the following MD counties: Cecil, Harford, Prince George's, Queen Anne, and Wicomico.

Note: The state of Virginia has not approved 2017 NEC courses for continuing education.

NEC changes which may enhance your business or affect your facility

- Emergency systems / generators must now have a bypass switch
- New provisions for examination, Identification, Installation and the Use of Equipment applies to used, refurbished, reconditioned or remanufactured equipment
- Revised requirements for services and feeders from 100 to 400 amperes
- Changes to rapid shutdown requirements for PV Systems
- Distance requirements for GFCI protection in dwellings; GFCI provisions for non-dwelling crawl spaces and lighting outlets

**Lighting in the 21st Century - A Guide to
 Successfully Navigating the Adoption of
 LED, a Lighting and Controls Seminar
 with Bob Preston, LC and Mark Lien, LC (IES)**

Thursday, September 21, 2017 at 9:00am – 11:30am
Cost: \$99 early bird price, \$139 after August 21

LED lighting is here to stay. But there is still much uncertainty about this new technology. This special CapitalTristate seminar helps fill the knowledge gap. The seminar will feature an enlightening, thought-provoking presentation by guest speaker Mark Lien, LC, with the Illuminating Engineering Society. Mark is a renowned speaker, long time observer, educator and advocate of lighting technology. His presentation may change the way you think about LED and lighting. In addition, we will try to help you to take full advantage of the energy saving and performance benefits that LED offers. We will cover specific topics such as lumen equivalency when comparing LED to traditional lighting (and how this informs your choices), color tuning and the potential human impacts of LED, how lighting controls are changing the way we think about the spaces we occupy while providing even more enhanced savings, and things to look for when evaluating LED products including the importance of warranties. CapitalTristate is pleased to offer this opportunity to help you navigate the LED revolution.

Trade Show Registration

THURSDAY SEPTEMBER 21, 2017 • 10:00am - 6:00pm

Martin's Crosswinds • 7400 Greenway Center Drive, Greenbelt, MD 20770
