

Get Certified. Win More Submetering Jobs.

Hands-on training, real-world skills, and certification built to help you complete jobs faster and capture more submetering work.

Energy codes are increasing demand for submetering across multi-family, commercial, and industrial projects and creating new revenue opportunities for contractors.

Submetering Pro gives you the hands-on training and support to install and commission systems faster, avoid costly mistakes, and take on more work with confidence.

Designed to deliver real ROI, helping you recover the investment on your first project and generate added margin on every job after.

> Why Contractors Join:

- Complete jobs faster and free up your crew
- Reduce callbacks that cut into your margin
- Take on more submetering projects with confidence
- Stand out as a certified, trusted installer

Most contractors bill \$2,000+ per day for commissioning work. This program is often paid back on your first project or even your first day on site.

> What Makes This Training Different:

- Small class sizes for quality hands-on learning
- Direct access to Leviton submetering experts
- Real-world training, not classroom theory

> What You'll Learn:

- Submetering fundamentals, applications, and code drivers
- Installation and wiring best practices across VerifEye solutions
- Troubleshooting techniques to avoid costly issues
- Basic commissioning to get systems up and running faster

> Investment

- **Tier 1 (2 days):** \$1,000 per participant

IEC Chesapeake members can **attend for free**. Simply enter promo code **IECsubmetering** with the session you'd like to attend in Question #17 when submitting your application and the \$1,000 fee will be waived.

Exclusive
Sessions Only
for IEC Members:

- > Sep 9-10
Laurel, MD
- > Sep 23-24
Dulles, VA

Not every contractor gets certified. This program is built for those who want to lead in submetering.
